

DRWF and other like-minded organizations are joining together to produce a Diabetes Rally this November. We are taking a united stand. We are looking for volunteers in all states to help us get our message across in stopping the rise in pharmaceuticals drug prices. Please join us in this first step by signing the petition and mailing it back to us. We will present the petitions in November. Check back on our website www.diabeteswellness.net for updates on our November event.

HELP MAKE PRESCRIPTION DRUGS AFFORDABLE

Petition to President Donald Trump

Dear President Trump,

Prescription drug prices are rising at an alarming and disgraceful rate in the United States.

Today, nearly 27,000,000 Americans with DIABETES depend on life preserving drugs that are quickly becoming unaffordable. Insulin, which is vital to keeping patients with type 1 diabetes alive, has tripled in price from \$231 to \$736 over the past decade!

The average cost for all prescription drugs has doubled in just 7 years, and there are now over 500,000 Americans who spend \$50,000 or more per year on prescription medications!

The American people need relief. Various federal agencies and programs like the FDA, OBAMACARE, and MEDICARE/MEDICAID have an enormous impact on the prices that Americans pay for their prescription drugs.

During the presidential campaign you advocated for requiring Medicare to negotiate the prices it pays for prescription drugs. You endorsed price transparency for our health care system, supported allowing drugs to be imported from other countries, and vowed to take on the powerful pharmaceutical lobby.

As a proud American citizen, I am urging you to act quickly, and do whatever you can to reduce the cost of prescription drugs for All Americans! Thank you for your consideration of my comments. I appreciate your continued attention and dedication to this national crisis.

Sincerely,
